

OncoScreen™

A trusted toolkit for
Cancer detection

Discover the Difference

With Mylab Discovery Solutions
Molecular Testing Solutions

Optimized for India

Considering the Indian Population all our pathogen detection kits cover all prevalent strains, Genetic disease detection kits are also optimized with mutations most prevalent in India; which are usually ignored by international testing solutions which are based on mutation only occurring in the Caucasian population.

Quality Assurance

Testing of internal positive/endogenous controls to check for extraction efficacy & PCR inhibitors for maximum quality & reliability assurance. Inclusion of positive & negative controls for quality check, ensures high security, reagent integrity, & result from reliable positive standards provided for all quantitative detection kits

Single Step RT-PCR

All Mylab tests are hassle free single-step RT-PCR tests

All Inclusive

Our solutions are inclusive of all reagents & plasticwares required to perform sample to Result analysis.

Simple and Fast

Simple reaction setup with easy data interpretation of results, within same day of sample receipt

Mylab Molecular Solutions

Behind Every Solution,
There Is Proven Performance.

Mylab Support

We understand that your work requires specialized, reliable, high-quality solutions, that's when you can rely on our team of experts to help ensure the best workflow options for your specific goals.

With an Application team of experts, you will receive lifetime application support on our products at no additional cost. Our team members are certified NABL auditors on which you can rely for your lab design and protocol set up operations

Affordability

With our thorough understanding of the molecular market, we are committed to providing the widest selection of testing solutions, with the highest quality for every budget, making us one of the preferred solution providers; and all this as we understand the 'Need' and we act on the 'Solution'

Even with the vast portfolio of assays and tests, we are always open to discuss the cost per test and the possibility of Reagent Rental solutions as per 'Need basis'.

Usage Flexibility

Run different test on the same platform at the same TIME, which means you can check various Cancer Mutations or different pathogens at the same time

One Instrument For All Tests

- Cancer marker detection
- Viral detection
- Bacterial identification
- GMO marker detection
- Meat detection
- Predictive genetics/nutrigenomics

OncoScreen™

For Oncology Marker Detection

We are focused on developing the right products, services, and support to meet the acute requirements of cancer diagnostics. With access to these innovative products & platforms, you can access our wide portfolio of sample to result solution.

EGFR Mutation & Detection Kit

EGFR- Substitution mutation exon 21 (L858R) and T790M Detection kit

MTHFR Mutation Detection Kit

MTHFR Mutation (A222V & A1298C) Detection Kit

KRAS Mutation Detection Kit

KRAS Mutation (codon 12&13) Detection kit

HER2 Mutation Detection Kit

Her2/neu Quantitative Detection Kit

JAK2 Detection Kit

JAK2 Mutation V617F Detection Kit

BRAF Mutation Detection Kit

BRAF Mutation (V600 E) Detection kit

ALK Mutation Detection Kit

ALK Variant (1-3/5) Screening Kit

PML RARA Quantification Kits

Quantification of both bcr1 and bcr3 Mutations.

BCR-ABL Quantification kits (Major, minor and micro)

Quantification of both BCR-ABL Mbcr, mbcr and μ -bcr

Mylab OncoScreen® Detection Kit

Kit Name	Reaction Size 50	Reaction Size 100
	Kit Cat.no.	Kit Cat.no.
Oncoscreen BCR-ABL1 Mbc Quantitative PCR Kit	OBBQP50	OBBQP100
Oncoscreen BCR-ABL1 Mbc, mbc and μ -bcr Quantitative PCR kit	OBBEQP50	OBBEQP100
Oncoscreen EGFR Mutation Detection kit (L858R & T790M)	OEDP50	OEDP100
Oncoscreen KRAS Muatation Detection kit (codon 12 & 13)	OKDP50	OKDP100
Oncoscreen JAK2 Mutation Detection Kit (V617F)	OJMSP50	OJMSP100
Oncoscreen ALK Mutation Detection kit Variant (1-3/5)	OADP50	OADP100
Oncoscreen BRAF Mutation Detection Kit (V600E)	OBMDP50	OBMDP100
Oncoscreen HER2 DNA Amplification Kit	OHAP50	OHAP100
Oncoscreen MTHFR Genotyping kit (A222V and A1298C)	OMGP50	OMGP100
Oncoscreen PML RARA bcr1 and bcr3 Quantitative PCR kit	OPLSQP50	OPLSQP100

Note: For other available pack sizes kindly send us an email at info@mylabglobal.com
